

Route sheets are printed in crew/scheduled date/route sequence. Maintenance crews will find this document especially helpful when trying to service jobs in the most efficient order. They can also be used as the source document for recording service completions and employees' time. Route sheets can be printed in detail (as shown), summary or user-customizable formats.

## Route Sheet Printing

4:02 PM  
03/01/98

ABC Landscaping, Inc.  
Route Sheet
