

the Service/Material Scheduling Report allows you to determine how many units will be serviced or how much material, labor, equipment, etc. is to be used during a particular time period. Report options are:

- Sequence - Print in Cost Code or Job Id sequence
- Range of Cost Codes
- Range of Job Id's
- Summarize by Week or Month
- Range of Schedule Dates
- Report Basis - Base the schedule on Units Serviced or Job Service Resources

Service/Material Scheduling Report

9:09 AM
10/08/98

ABC Landscaping, Inc.
